- Instrumental data (AD 1902-1998)
- - - Calibration period (AD 1902-1980) mean
- Reconstruction (40 year smoothed)
- - - Linear trend (AD 1000-1850)

Mann et al., GRL, 1999

***WHERE IS ALL
THIS CO₂
COMING FROM?***

***WHO IS
RESPONSIBLE?***

HOW MUCH CARBON IS IN A GALLON OF GASOLINE?

1 lb?

2 lbs?

3 lbs!?

5 lbs!?! 

All of this carbon goes into the
atmosphere as carbon dioxide when
 you burn the gasoline in your car. 

THE MOST EFFECTIVE WAY TO
DOUBLE THE FUEL ECONOMY
OF A CAR . . .

IS TO PUT TWO PEOPLE IN IT!

YOUR FAMILY'S CONTRIBUTION TO THE GREENHOUSE EFFECT

A typical household using 1000 kilowatt hours of electricity per month is responsible for emission of 3 tons of carbon a year in the form of carbon dioxide.

How much does your household contribute?

YOUR CONTRIBUTION TO THE GREENHOUSE EFFECT

ELECTRIC SUPPLY AND DELIVERY FROM LIPA

Service Problems

At half a pound of carbon per KWH, the average household is responsible for emission of 500 pounds of carbon a month.

Suffolk County Limits CO₂ Emissions

Breath of Fresh Air

Gaffney signs bill to limit greenhouse gas emissions

Newsday July 25, 2001

By Emi Endo

Suffolk County Executive Robert Gaffney yesterday signed into law a bill aimed at limiting greenhouse gas emissions locally, although critics questioned how much it would actually reduce the emissions.

Beginning in March, for every 100 megawatts of new generation added in the county, the emissions rate must be reduced by 1 percent,

until a 20-percent reduction is achieved. Power plants that exceed the standard would face fines.

During negotiations, Fisher raised the emissions limit from less than 1,500 pounds to 1,800 pounds of carbon dioxide per megawatt hour and cut the penalties from \$5 for each ton of carbon dioxide emissions exceeding the limit to \$2.

0.49 lbs Carbon per KWH

WHERE DOES YOUR ELECTRIC ENERGY COME FROM?

On Long Island most electric energy derives from combustion of oil.

WHAT COUNTRY USES THE MOST
ELECTRIC POWER?

WHAT COUNTRY USES THE MOST ELECTRIC POWER?

No surprise. It's the United States.

WHAT COUNTRY USES THE MOST
ELECTRIC POWER ***PER CAPITA?***

WHAT COUNTRY USES THE MOST ELECTRIC POWER *PER CAPITA*?

No surprise. It's the United States again.
